NBA Mode

Made by @Frittutisna

Player Card

- Get **streaks** of songs right as **quickly** as possible to score **points**, especially when your team has **possession**

- If you're T1, you count for more, so give it your 110%

- Up to 40 songs @ 10 seconds = ~75 minutes

- 0-40 Watched with Random Rig Distribution

Lobby Host Card

Install the Script through TamperMonkey, then:

1. Apply the lobby setting code

2. Invite players to the lobby and ensure they're lined up correctly (Away then Home, **T1-T2-T3-T4**), then type /nba howTo and follow the instructions there

3. Type /nba start after everyone is ready. Type /nba resetGame if you started by mistake, return to lobby, then type /nba start to restart

4. After each Game, open the downloaded Scoresheet, copy the top row, then paste it in #game-reporting with the Scoresheet and JSON

5. Repeat from Step 1 for a new lobby, from Step 2 for the same lobby and a new opponent, or from Step 3 for the same lobby and opponent

Tour Host Card

1. Open the tour signup prompt and ask for team requests/blacklists

2. After the player list settles, find the <u>Balancer</u> and follow the instructions there

3. If needed, ask for 1 lobby host volunteer from each team

4. Read the <u>Format</u> section and prepare the <u>Challonge</u>

5. Post the Balancer results on <u>#tour-information</u>

6. Note the results of each game in Challonge

7. If needed, ping teams that advance to the <u>Conference Finals/NBA Finals</u>

8. Announce the <u>results</u>
